

You should not separate paragraphs with `\\`.

This will produce underfull hboxes. Instead use `\par` (or leave a blank line).

This equation is too long. You can see that from with the help of the `draft` option or with `\usepackage{showframe}`.

$$1+2+3+4+5+6+7+8+9+10+11+12+13+14+15+16+17+18+19+20+21+22+23$$

(1)

Try the next line with `\usepackage[final]{microtype}` and without it.
